

Geography Statement of Intent

Through their geography work at Georgian Gardens we want the children to develop a good understanding of The World. To have a curiosity for their local area and to be able to compare our locality to that of others around the globe. We want children to have an appreciation of the effect of human activity on The World's resources and measures which can be taken to tackle the impact.

Knowledge

- To name and locate a wide variety of local, country and world locations
- To understand physical features in the U.K.
- To understand the human geography of settlements, trade links and mobility
- Locate main features of world geography
- To understand and explain geographical events such as volcanoes

Skills

- To be able to read a map of increasing complexity
- To use up to six figure grid references
- To be able to use a compass accurately
- Relate world resources to the need for protecting the environment
- The ability to ask questions about the locality around them
